Dear Dr. Eisenberg:

As an important supporter of pharmaceutical and biological research, you are well aware of the implications of the growing field of neuropeptide research. The Winter Neuropeptide Conference is a meeting designed to stimulate neuropeptide research and allow a multidisciplinary discussion of aspects of neuropeptide functions in an informal setting. The conference in 1993 will be our 14th meeting. Dr. Bruce McEwen, The Rockefeller University, will be plenary speaker. His topic is "Hormones Modulate an Ever-Changing Brain". The planned symposia, listed in the enclosure will highlight advances in major areas of neuropeptide research; in addition, 30-40 posters on peptide-related topics will be presented.

To ensure the success of the upcoming meeting I need to secure additional funding, therefore, following the advice of Dr. Donald Ford, I am approaching you to obtain financial help from the Council. Most papers from the conference are published in *Peptides*; acknowledgements of support is listed in all publications. All contributions will be greatly appreciated. Please direct checks to Dr. Curt Sandman, our conference treasurer, at the address listed on the left. This office also has our tax exempt number.

Members of your institution are cordially invited to attend the conference, which will be held in Breckenridge, Colorado, February 6-9, 1993. Please contact the conference coordinator for the registration forms.

Since we are asking you for support - is there anything we can do for you in immediate return? We will be happy to display advertisements and distribute materials to participants or whatever else you may suggest. Please call me to make arrangements for your special needs; *we want to make it profitable for you to support us.*

Thank you in advance for your kind consideration.

Sincerely,

Bibie M. Chronwall
